

Be an Integrated Project Work

PROGRAMME OVERVIEW

While A-Levels are important for admission to university, they also provide advantages later on. A-Levels (and their grade levels) are widely recognised by universities around the world. A strong set of A-Level results, combined with your degree, will help you stand out from other candidates. In City Academy, we provide intensive personalised coaching with integrated project works and you will be exposed to training research skills.

Duration of Study: 1 Year
Credit Hours: 60
Intakes: Jan, May & Sept

This is a great way to demonstrate consistent performance and your ability to meet international standards of excellence. Given these benefits, it's not surprising that A-Levels students are becoming increasingly popular. As one of the best way to make the transition to universities, they are an ideal way to prepare yourself for a successful future.

WHY CHOOSE A-LEVEL?

1

They are the most sought after into renowned universities worldwide. They are widely recognised internationally.

2

It is a great introduction in the design to the study habits, personality & character building which are incorporated into the course preparing you as university entrance exams.

3

A-Levels are the route into top universities such as Oxford, Cambridge or other Russell Group institutions. Taking A-Levels demonstrates your commitment to securing a place at a university.

4

They allow you to focus on a few subjects that relate to the course you want to study at university. We offer A-Levels for students to focus on subjects such as Business, Mathematics and Sciences as well as core Humanities subjects, including English and History.
